

SEAPORT-E

Scope: Core activities cover the entire life cycle of a warfighting capability including:

- Research, technology development, concept, design and demonstration required to introduce transformational technologies into new or existing surface, undersea and strategic warfighting capabilities.
- Prototyping and fabrication.
- Test and evaluation.
- Certification, deployment, life cycle sustainment, operation and maintenance.
- Improvement, modernization, and overhaul.
- Demilitarization and disposal.

User Restrictions: Use of this vehicle is open to the Naval Sea Systems Command, Naval Air Systems Command, Space and Naval Warfare Systems Command, Naval Supply Systems Command, Military Sealift Command, Naval Facilities Command, Strategic Systems Programs and the United States Marine Corps. Additionally, activities may provide limited support under the contract to other DoD, non DoD, or Joint agencies for work that is integrally related to product areas, programs, or missions assigned to these activities.
