

Title in Initial Capitals, Maximum Fifteen Significant Words

Overview. This illustrates the appearance/format/content of abstracts to be considered for placement in the technical program of a Battelle Conference. Abstracts must be in English and should not exceed one standard page size. Abstracts should be well written, clearly and concisely outlining the material being proposed for presentation. The ***required section headings*** listed under “Text Format, Content, and Required Sections” will enable reviewers to quickly comprehend the scope of the work, evaluate the proposed presentation, compare it with others on similar topics, and, if accepted for the program, assign it to a session. ***Abstracts with a pronounced commercial or marketing tone will not be accepted.***

Submittal. Abstracts must be uploaded through the link found on the applicable Conference website on the **Abstract Specifications & Submittal page** for the appropriate Conference and should be submitted by the specified due date for maximum opportunity for program placement. Abstracts submitted by email will not be accepted for review. Before entering the submission portal, collect postal and email addresses and other contact information for **all authors** you will list on the abstract. In addition, open the abstract so that you may copy/paste it into the designated fields. **Please utilize “paste as plain text” to help eliminate html formatting errors.**

Text Format, Content, and Required Sections. Type the abstract body in 10-point Arial. Use the following ***required section headings***, typed to look like “**Text Format and Required Sections**” in this paragraph. Do not include keywords, pictures, or graphs, but do add any necessary disclaimers.

Background/Objectives. State the problems, situations, and objectives that led to the work intended to be presented. For pilot- or field-scale work, briefly summarize the history, climate, and other pertinent conditions of the site(s). If the site(s) cannot be named for reasons of confidentiality, provide enough information to establish context.

Approach/Activities. Describe the project scale (e.g., laboratory, field) and identify the scientific principles, technology, or combination of technologies being studied.

Results/Lessons Learned. Mention any results that can be discussed now and describe the types of data and analyses expected to be available at the time of presentation.

Co-Authors. You will enter your co-authors after you enter your abstract content. Please enter co-authors in the desired order of listing on the abstract. Upon submission, each entered Co-Author will receive a confirmation email with your contact information and their login information. Presenters only have Read/Write access. All Co-Authors have “Read Only” access, unless you assign a Co-Author as the presenter.
