

PFAS Annihilator™

A closed-loop, on-site destruction solution powered by supercritical water oxidation.

BATTELLE

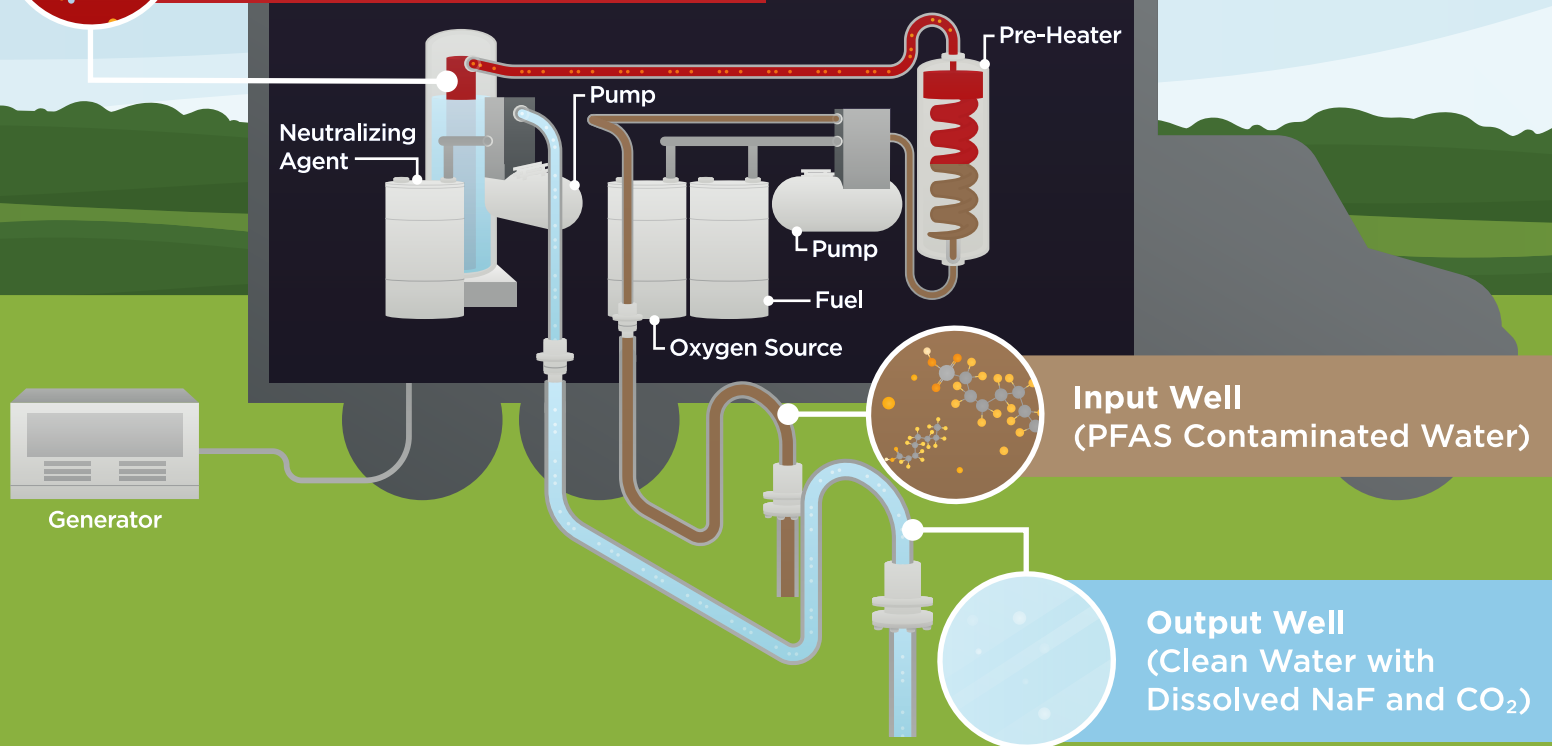

Battelle is committed to addressing the growing need to effectively and efficiently treat water for per- and polyfluoroalkyl substances, or PFAS.

PFAS Annihilator™ not only removes, but also destroys these substances.

PFAS Annihilator™
(PFAS Removal and Destruction)

Treated water can be tested to confirm compliance, and then discharged back into the environment.
