Examples of anticipated presentation topics are listed below; use the numerical codes to reference topics you believe are the best match for your proposed presentation when submitting your abstract. This is neither a final nor comprehensive list. Abstracts are welcome on all relevant topics.

**Environmental Processes and Modeling**
- 1a. Contaminant Fate and Transport in Sediments
- 1b. Groundwater/Sediment/Surface Water Interactions
- 1c. Hydrodynamics and Sediment Transport
- 1d. Ebulition
- 1e. Food Web Models
- 1f. Contaminant Bioavailability and Uptake
- 1g. Geospatial Data Evaluation and Data Visualization

**Characterization, Assessment, and Monitoring**
- 2a. Noncontaminant Stressors
- 2b. Chemical/Toxicological/Biological Measurements and Monitoring
- 2c. Emerging Contaminants
- 2d. Innovative Characterization and Assessment Tools
- 2e. Passive Samplers
- 2f. Contaminant Forensics
- 2g. Ecological and Human-Health Risk Assessment
- 2h. Field Sampling Methods and Techniques
- 2i. Field Sampling Tools
- 2j. Long-Term Monitoring Strategies
- 2k. Source ID, Loading Assessment, and Control

**Remediation and Restoration Alternatives**
- 3a. Cap Design and Modeling
- 3b. Cap Construction and Operation
- 3c. MNR and Enhanced MNR
- 3d. Dredging Design and Operation
- 3e. Dredged Material Dewatering and Disposal
- 3f. Understanding Chemistry of In Situ Treatment Amendments
- 3g. Field Scale Application of In Situ Treatment Technologies
- 3h. Evaluating Sustainability
- 3i. Beneficial Use of Contaminated Sediments
- 3j. In Situ Stabilization

**Remedy and Restoration Implementation**
- 4a. Remediation of Urban Waterways
- 4b. Successfully Combining Remedies
- 4c. Innovation and Improvement in the Design Process
- 4d. Monitoring and Assessing Effects during Remedy Execution
- 4e. Monitoring and Evaluating Remedy Effectiveness
- 4f. Habitat Mitigation and Restoration

**Management Approaches and Policy**
- 5a. Sediment Management under State-Led Programs
- 5b. Adaptive Management Approaches
- 5c. NAPL and MGP Sites
- 5d. UXO and MEC Sites
- 5e. Restoration and Revitalization Strategies
- 5f. Establishing Remediation Goals
- 5g. International Approaches for Site Identification and Cleanup
- 5h. International Experiences in Contaminated Sediment Remediation
- 5i. Communication and Facilitation with Stakeholders
- 5j. Site Management Decision Strategies
- 5k. Risk-Based Management and Cleanup Decisions
- 5l. Integrating Waterfront Redevelopment
- 5m. Great Lakes Legacy Act Successes and Challenges
- 5n. Natural Resource Damages and Damage Assessment
- 5o. Remedy Cost and Cost Allocation Considerations
- 5p. Socially Sustainable Sediment Management: Stakeholder Values and Community Priorities
